

Jaroslava Tanzerová (CzechTourism, 2018)

The three-month internship at the Foreign CzechTourism Representative Agency in London was an amazing experience, and I really enjoyed my stay there. I'm grateful to the University of South Bohemia, to the Erasmus+ Programme and to CzechTourism, besides other things, for this special opportunity to work in such a great team of people and to assist in the preparation of many interesting events, which, I think, I wouldn't have been able to attend otherwise. Thanks to this internship, I experienced what it is like to live in the beautiful City of London and I was able to communicate with many local people. I believe it was a valuable asset not only for my future career but also for my personal life.
